**GROWING**  
your business

Flashgift

# Technology is our speciality

With our constantly expanding catalogue we are able to supply the best solution for every promotion or marketing need.

Our qualified support team is always available to guide you during the whole order process, from the initial request and the sample creation to the final product delivery.

In the next pages you will find over 150 products divided among 12 categories, all customizable with your company logo and graphics. They will be the perfect, valuable and cost effective gifts.

Be sure to take a look at our best selling products, with a 100% CUSTOM DESIGN: we can provide you gadgets completely customizable, both in shapes and colors. Share with us your idea and we will create a bespoke promotional accessory either in a 2D or 3D shape.

# Resources

## Technology goes wireless

Our catalogue is full of new products, both in terms of variety and technological innovation.

## Unbeatable prices

From budget-friendly giveaways to top quality items, we offer always the best prices in the market.

## Certifications

Our USB sticks over 16 GB are life-time guaranteed and we ensure legal warranty for all products.

## Mark the difference

You can find different products from a classic company gadget to a high-end gift.

## Urgent orders

A selection of our products shipped within only 24/48 hours from the order confirmation.

## Custom design

With our 100% Custom Design service you can promote your business in a truly original way.

## Budget is the king

A range of flexible prices: from the lowest to the highest, from keychains to audio products.

## Order just 50 Unit

You will find a large number of products with minimum order quantity of only 50 pieces.

## Digital services

We offer you a wide set of digital services, ranging from data preload to icon customization.

# Augmented reality

## The potential applications of Augmented Reality in the promotional market

There is a lot of talk about Augmented Reality (AR) which has been a part of our daily life for some time, but what does it mean to make the most of this opportunity within the promotional market?

The technology now plays an important role: imagine scanning a QR code on a product sheet with a tablet or smartphone, the system recognising it and then perfectly mapping it to the reality that the person is experiencing at that precise moment. Or during a

presentation, when putting together a brief, to gather concrete ideas about a project.

We have always been naturally oriented towards innovation, towards the future, and we were ready to include AR in our product launches.

Augmented Reality has already been integrated in several other areas, predominantly in entertainment, and now in the world of corporate gadgets: a new tool to bridge the gap between

the company and its customers in a market where being "global" is not only a mere aspect, but an essential requirement.

AR technology has now become a fully fledged form of visual content management, allowing us to add a new dimension of information to our products by enabling customers to interact with them on a deeper level.

This has begun a revolution in the Customer Experience, with our products now able to be seen in real physical contexts to aid customers in

their selection processes, guided by the highly informative approach that sets us apart.

One thing is for certain: the status quo is ready to be turned on its head, and Augmented Reality will enable us to develop an ever wider array of applications with our imagination and creativity.

Sustainable, Recycled, Natural

# Eco-friendly

You no longer need to choose between functionality and eco-sustainability: the products in this range are made from recycled materials, such as plastic or paper, materials of plant origin such as wheat fibre, wood or bamboo, and natural

elements alternative to plastic, such as those found in cement.

With these products, you can reduce environmental impact, and you'll be amazed by the quality and appeal.

# Our brand new materials!

## Recycled Plastic

Since the majority of plastic is non-biodegradable, recycling is fundamental to reduce it in the waste stream. The plastic we use here is recovered and reprocessed to turn it into new useful products.

## Concrete

The concrete of our products has a slightly rough surface. This texture, paired with a minimal outline, gives to the product an original and sophisticated look reminiscent of industrial design.

## Cardboard

The cardboard we use consists of several surfaces of flat paper alternating with corrugated paper, linked together by natural adhesives. It can easily be recycled.

## Wheat Fibre

Wheat fibre is an eco-sustainable material that results from the assembly of natural fibre and ABS, and which represents a valid alternative to plastic products that have a greater environmental impact.

## Wood & Bamboo

Wood and Bamboo are natural materials for which no industrial and polluting processes are needed. In particular, bamboo has a fast and natural growth cycle and needs no intensive farming to thrive.

## Grain

CB901

Multiple connector equipped with standard USB cable, micro-USB, Lightning and Type C, all with fast charging function for smartphones or other devices. The hub from which the cables come out is made of wheat fibre (a special assembly of ABS and natural fibre), with a rectangular bamboo insert.

## Bamboo Rectangle

PB040

Rectangular base Power Bank with a body with rounded corners covered in bamboo. This model has a compact and elemental shape, and it is supplemented by the natural color of wood. It can be customised with silk-screen printed and laser-engraved graphics.

<u>CAPACITY</u>	4.000 mAh
<u>SIZE</u>	12,5 × 6,6 cm
<u>MATERIALS</u>	Bamboo
<u>PRINT AREA</u>	12,3 × 6,4 + 10,5 × 4,6 cm
<u>PRINT</u>	Silk-screen Printing, Laser Engraving

## Bamboo Square

PB041

Square base Power Bank with a body with rounded corners covered in bamboo. The compact size and the thickness of just 2 centimetres lend this power bank a compact and elemental shape, which is teamed with the natural color of wood.

<u>CAPACITY</u>	4.000 - 5.200 mAh
<u>SIZE</u>	7,6 × 7,6 cm
<u>MATERIALS</u>	Bamboo
<u>PRINT AREA</u>	7,4 × 7,4 + 5,5 × 5,5 cm
<u>PRINT</u>	Silk-screen Printing, Laser Engraving

## Bamboo Round

WC005

The real bamboo shell has a round base with a micro USB port and small lateral LEDs that shine when the battery charger is connected to an energy source. This accessory is compatible with smartphones that are equipped with integrated Qi technology.

<u>OUTPUT</u>	5W
<u>SIZE</u>	Ø 9,0 cm
<u>MATERIALS</u>	Bamboo
<u>PRINT AREA</u>	Ø 8,0 cm
<u>PRINT</u>	Silk-screen Printing, Embossing

## Plate

WC905

Wireless charger with shell in wheat fibre, compatible with all devices designed for wireless charging. Wheat fibre is an eco-sustainable material that results from the assembly of natural fibre and ABS, and which represents a valid alternative to plastic products that have a greater environmental impact. In

the body there is an integrated LED that lights up during use and illuminates the edge of the shell. It uses standard Qi and functions via magnetic induction, with an energy emission equal to 5W.

OUTPUT	5W
SIZE	Ø 10,0 cm x 1,3 cm
MATERIALS	Wheat
PRINT AREA	Ø 3,2 cm
PRINT	Digital Printing

### Check out the product in AR

You can scan the QR code with your smartphone to see the product in AR as if it was on your desk!

## Cartoon

WC911

10W cardboard wireless charger with which you can recharge your smartphone without connecting it via cable, but simply by placing it on the surface of the device. The peculiarity of its material makes it both a light product to carry around and eco-friendly. The cable, which is roughly 80cm long, is found

inside and is completely removable. Cartoon is equipped with a USB Type-C port and is available in the natural colour of its material. It is customizable on the top with logos and graphics via digital printing.

OUTPUT	10W
SIZE	Ø 9,0 cm x 1,3 cm
MATERIALS	Carton + Plastic
PRINT AREA	Ø 8,4 cm
PRINT	Digital Printing

### Check out the product in AR

You can scan the QR code with your smartphone to see the product in AR as if it was on your desk!

## Bucket

WC907

5W wireless charger and pen holder in one single product, with a cork finishing. The inclined surface keeps your smartphone in a vertical position as it charges via induction (this works only for compatible models) with DC5V/2.0A input and output. The pen holder is spacious, and its interior

is covered with soft PU leather. Bucket is the ideal support to keep your workstation tidy and to easily check mail and messages from your phone. Furthermore, thanks to two additional USB ports on the back, it also acts as a hub to charge multiple devices via cable.

●	
OUTPUT	5W
SIZE	15,1 × 10,7 × 10,8 cm
MATERIALS	Cork
PRINT AREA	6,0 × 9,0 cm
PRINT	Laser Engraving

## Cork Pad

WC910

The Cork Pad is a mouse pad made of cork, a natural material obtained with simpler manufacturing processes as opposed to processes used for synthetic products, which also works as a 10W wireless charger for charging smartphones or Bluetooth mouse equipped with induction technology. In

addition to making the work environment more functional, this promotional gift has a large surface for customization thanks to the two areas of cork printing on the front in either digital or laser engraving. When folded, the pad can be taken anywhere or used as a practical support for smartphones.

●	
OUTPUT	10W
SIZE	20,5 × 8,7 × 7,9 cm
MATERIALS	Cork
PRINT AREA	17,0 × 7,0 (x2) cm
PRINT	Laser Engraving

# Reusable packaging

In recent years, there has been a consolidated trend toward the inclusion of environmental issues in the daily activities and communication of companies, and new initiatives are also being launched in this direction to facilitate the move to an environmentally friendly consumption pattern.

Here, then, is our first small step that can make a difference in the use of materials: a fish-bone shaped cable winder can be made from the box that holds one of our water bottles. You can carry it with you at all times to keep your earbuds and electronic devices cables tidy.

In this context, the use of recycled and recyclable materials is already widespread, both in the manufacturing of products and in the packaging that contains them. However, is it possible to expand the boundaries of this vision and guide one's customers in the direction of eco-friendly consumption?

Reuse and waste reduction are certainly one of the current trends, but for us they are much more than that: we recognize our responsibility as a company in reducing the environmental impact on a daily basis and we continue day after day toward the constant search for innovative and sustainable proposals.

This is where we got the idea of designing and developing packaging that can initially contain the product, but then offer the possibility of a different use through a change in form, making it a totally unexpected object.

## Jukebox

SP913

Eco-friendly 3W Bluetooth speaker, in Bluetooth 5.0 version, covered in cardboard. The speaker has a round base and small dimensions (6,2 x 8 cm); it is rechargeable via USB cable and has a battery life of roughly 5 hours of continuous listening on a single charge. Jukebox is customizable on 1 side

via digital print and is available in the natural colour of its material. Furthermore, thanks to its immediate availability on site, you can receive this product within 24 to 72 hours after the order is confirmed, depending on the destination areas.

OUTPUT	3W
SIZE	Ø 6,2 x 8,0 cm
MATERIALS	Carton
PRINT AREA	2,5 x 5,0 cm
PRINT	Digital Printing

are shipped directly from our facilities within 24/48 hours of order confirmation; therefore, delivery takes place in 24 or 72 hours depending on the destination area.

EP901

## Color Card Round ECO

USB\_4016

Made of recycled plastic, round USB flash-drive that is ultra slim and small as a result of the latest generation COB chip. It is equipped with a connector that comes out from the side, and can be removed from the rest of the body to facilitate use.

<u>SIZE</u>	Ø4,3 × 0,2 cm
<u>MATERIALS</u>	Recycled plastic
<u>PRINT AREA</u>	Ø4,3 cm + Ø 4,3 cm
<u>PRINT</u>	Silk-screen Printing, UV Printing

## Color Card Small ECO

USB\_4017

Ultra slim smooth USB flash-drive. Given its shape of a credit card, it is extremely practical to carry around. It is made of recycled plastic and equipped with a connector that comes out from the side, which can be removed to facilitate use.

<u>SIZE</u>	6,0 × 3,0 × 0,2 cm
<u>MATERIALS</u>	Recycled plastic
<u>PRINT AREA</u>	6,0 × 3,0 cm + 6,0 × 3,0 cm
<u>PRINT</u>	Silk-screen Printing, UV Printing

## Cardboard

USB\_0019

In this USB stick the memory chip is inserted in a corrugated cardboard with a thickness of just over half a centimetre. The material is the same as that usually used for packaging and consists of several surfaces of flat paper alternating with corrugated paper, linked together by natural adhesives.

<u>SIZE</u>	6,1 × 2,8 × 0,8 cm
<u>MATERIALS</u>	Carton
<u>PRINT AREA</u>	3,2 × 2,0 + 3,2 × 2,0 cm
<u>PRINT</u>	Silk-screen Printing, CMYK Printing

## Paper Drive

USB\_6095

Standard size, square profile USB flash-drive made from recycled cardboard. The ecological style and essential lines make it the ideal gadget to promote environmental sustainability or paper industry products. It can be customised on both sides with silk-screen printing.

<u>SIZE</u>	6,0 × 2,8 × 0,9 cm
<u>MATERIALS</u>	Carton
<u>PRINT AREA</u>	3,2 × 2,0 cm + 3,2 × 2,0 cm
<u>PRINT</u>	Silk-screen Printing

## Color Card ECO

USB\_4015

Ultra slim smooth plastic USB flash-drive. Given its shape of a credit card, it is extremely practical to carry around. It is made of made of recycled plastic and equipped with a connector that comes out from the side, which can be removed to facilitate use.

<u>SIZE</u>	8,3 × 5,2 × 0,2 cm
<u>MATERIALS</u>	Recycled plastic
<u>PRINT AREA</u>	8,3 × 5,2 cm + 8,3 × 5,2 cm
<u>PRINT</u>	Silk-screen Printing, CMYK Printing

## Stiff ECO

USB\_1051

Our classic Stiff USB stick now in an eco-friendly version made of recycled plastic. Standard rectangular shape, it is equipped with a removable cap and hook at the end to apply straps and accessories.

<u>SIZE</u>	7,4 × 2,0 × 0,8 cm
<u>MATERIALS</u>	Recycled plastic
<u>PRINT AREA</u>	3,2 × 1,1 cm + 3,6 × 1,1 cm
<u>PRINT</u>	Silk-screen Printing, CMYK Printing

## Twister Rubby ECO

USB\_1111

Ultra slim smooth USB flash-drive. Given its shape of a credit card, it is extremely practical to carry around. It is made of recycled plastic and equipped with a connector that comes out from the side, which can be removed to facilitate use.

<u>SIZE</u>	5,8 × 2,0 × 1,0 cm
<u>MATERIALS</u>	Recycled plastic + Metal
<u>PRINT AREA</u>	2,4 × 1,3 cm + 2,4 × 1,3 cm
<u>PRINT</u>	Silk-screen Printing, Laser Engraving, Epoxy Doming, CMYK Printing

## Twister Wood

USB\_6106

The all-time favorite model comes also in an ecologic version: try this wooden model available in three materials maple, walnut and Bamboo.

---

<u>SIZE</u>	● ● ● 5,8 × 2,0 × 1,0 cm
<u>MATERIALS</u>	Maple, Bamboo, Walnut + Metal
<u>PRINT AREA</u>	2,4 × 1,3 cm + 2,4 × 1,3 cm
<u>PRINT</u>	Silk-screen Printing, Laser Engraving, Epoxy Doming, CMYK Printing

## Duo

USB\_0004

USB flash-drive with wooden body and silver colored satin finish metal-look plastic cap. The body is available in walnut, maple and bamboo and it can be customised on both sides using silk-screen printing or in relief.

---

<u>SIZE</u>	● ● ● Size: 4,6 × 1,8 × 1,0 cm
<u>MATERIALS</u>	Maple, Bamboo, Walnut + Plastic
<u>PRINT AREA</u>	2,2 × 1,2 cm + 2,2 × 1,2 cm
<u>PRINT</u>	Silk-screen Printing, Laser Engraving

## Twister Reloaded

USB\_0018

The most popular USB stick ever in an eco-friendly version made of recycled plastic. This material has a hazel colour with a particular mélange effect. In addition to the aesthetic result, the strength of this key is that it allows you to give new life to recycled plastic, fully adopting the ecological spirit.

---

<u>SIZE</u>	● 6,0 × 1,8 × 1,0 cm
<u>MATERIALS</u>	Recycled plastic
<u>PRINT AREA</u>	2,4 × 1,3 + 2,4 × 1,3 cm
<u>PRINT</u>	Silk-screen Printing, CMYK Printing

## Tock

USB\_6100

Wooden USB flash-drive available in three models: Bamboo, Walnut and Maple. It has a standard square shape and is equipped with a removable cap with a magnetic closing system. Its essential design gives the flash-drive a minimalist style, which is however softened by the wood.

---

<u>SIZE</u>	● ● ● 6,0 × 1,8 × 0,9 cm
<u>MATERIALS</u>	Maple, Bamboo, Walnut
<u>PRINT AREA</u>	3,8 × 1,4 cm + 3,8 × 1,4 cm
<u>PRINT</u>	Silk-screen Printing, Embossing

## Razor Wood

USB\_6102

Wooden USB flash-drive with a rectangular shape and extremely compact in size, available in three types of material: Bamboo, Walnut and Maple. Inspired by the rotating motion of traditional razors, it features a swivel-opening mechanism to expose the connector, making it extremely practical to use.

---

<u>SIZE</u>	● ● ● 3,7 × 1,7 × 0,5 cm
<u>MATERIALS</u>	Maple, Bamboo, Walnut + Plastic
<u>PRINT AREA</u>	2,6 × 1,2 cm + 2,6 × 1,0 cm
<u>PRINT</u>	Silk-screen Printing, Embossing

## Limb

USB\_6104

USB flash-drive that combines technology with the warm characteristics of wood. It has a standard oval shape and is equipped with a magnetic closing cap. It is available in three models: Bamboo, Walnut and Maple. It can be customised on both sides with silk-screen printing or resin relief.

---

<u>SIZE</u>	● ● ● 6,1 × 2,3 × 1,0 cm
<u>MATERIALS</u>	Maple, Bamboo, Walnut
<u>PRINT AREA</u>	3,3 × 1,3 cm + 3,3 × 1,3 cm
<u>PRINT</u>	Silk-screen Printing, Embossing

## Hoop

USB\_0022

USB flash drive in recycled plastic, extremely practical to carry around thanks to its clip and its small size. Recycled plastic can change colour depending on the mix used. This should not be considered a defect, but a unique characteristic of the product.

---

<u>SIZE</u>	● 4,2 × 3,0 cm
<u>MATERIALS</u>	Recycled plastic
<u>PRINT AREA</u>	Ø 2,8 cm
<u>PRINT</u>	Silk-screen Printing, UV Printing

No more low battery blues!

# Energy & Reload

Accessories for smartphones, app-controlled Wi-Fi and Bluetooth devices, USB cables and gadgets for free time and the office: in this section you can discover a wide variety of promotional gadgets to suit all budgets and occasions. Find out the best ways to showcase your logo!

## Lot

This housing is available in glazed silver, glazed gold and black versions, and can be customised on both sides using serigraphy printing or laser engraving. On one of the short sides, you will find the 2A USB ports, the on/off button, and the LED indicators that show the status of the battery charge.

PB062

# Qi technology and wireless charging: what they are and how they work

## What is Qi technology?

Qi is the name of the universal standard that the Wireless Power Consortium, the reference body of the sector, has assigned to the charging system that exploits the phenomenon of electromagnetic induction.

## Why wireless?

Since the induction allows the passage of energy from one device to another through simple contact, the products that are equipped with it are called wireless, as they don't need any of the classic USB cables.

## What is the difference between the various charging systems?

### Power Bank

A power bank is a genuine external battery that recharges your smartphone via a USB cable. It only works if it has in turn been previously charged via USB cable connected to a PC or a wall power socket.

### Wireless Charger

Unlike the Power Bank, the charger does not have a battery inside it but rather a metal coil that allows energy to flow from one device to the other via induction (and so wireless).

All you need is for the phone to be placed on top of the charger. However, for it to work, the wireless charger needs to have a power source at hand, which could either be a PC or a power socket.

### Induction Power Bank

An Induction Power Bank is a wireless Power Bank that combines the advantage of recharging your phone on-the-go with the convenience of a total absence of cables.

The body contains both a battery and a coil which conveys energy to the smartphone wirelessly. This means that once it has been recharged, the wireless Power Bank does not need to be connected to a power source.

## Shuttle

WC002

A battery charger with wireless technology, meaning you can recharge your smartphone simply by placing it on the surface of the device without having to connect it via a cable. This model also features four additional USB ports to charge several devices simultaneously. The entire surface of

the plastic disc can be customised with graphics and logos using silk screen-printing, CMYK printing and LED printing, a technique that creates layers of colour with a relief effect combined with the back-lit LED light.

	○ ●
<u>OUTPUT</u>	5W
<u>SIZE</u>	Ø 10,0 × 1,3 cm
<u>MATERIALS</u>	Plastic
<u>PRINT AREA</u>	Ø 9,6 cm
<u>PRINT</u>	Silk-screen Printing, CMYK printing, LED printing

## Stud

WC909

Battery charger with wireless technology allowing you to charge your smartphone without connecting it via cable. It works via magnetic induction, with a power output of 15W. Stud is equipped with a USB Type-C port and is available in white plastic.

<u>OUTPUT</u>	○ 15W
<u>SIZE</u>	Ø 5,7 × 0,6 cm
<u>MATERIALS</u>	Plastic
<u>PRINT AREA</u>	Ø 4,0 cm
<u>PRINT</u>	Laser Engraving

## Pocket

WC016

Battery charger with wireless technology that allows you to charge your smartphone without connecting it by cable. Simply place it on the surface of the device. It features a magnet to hold the phone securely while charging and is compatible with iPhone 12. Alternatively, you can use the

# What is LED Logo?

The LED Logo printing is a terrific and creative way of personalizing your promotional products, it makes the logo or the applied graphics stand out dramatically thanks to the LED backlight that lights up when the device is in use.

This unconventional technique works by using the color to delimit void and filled areas, in order to let the light pass through and lighten up only chosen sections of the surface, creating an original contrast effect that enhances the logo like no

other printing technique. Some products of our catalogue allow also to create layers of color with higher or lower density: this makes the graphics even more elaborate and sophisticated, emphasized by the kaleidoscopic light contrast.

## Pad

WC012

The Wireless Pad is a mouse pad that also act as a 5W /7,5W /10W wireless smartphone or mouse Bluetooth charger equipped with induction technology. The base of the pad is made of anti-slip rigid plastic, while the top surface is covered in eco-leather.

<u>OUTPUT</u>	● 5W - 7,5/10W
<u>SIZE</u>	24 x 19,5 x 0,6 cm
<u>MATERIALS</u>	Plastic
<u>PRINT AREA</u>	23,5 x 19 cm
<u>PRINT</u>	CMYK Printing, Embossing

## Nova induction

PB048

Power Bank with plastic shell and round base, equipped with wireless technology. The battery is available in four capacities from 2.000 mAh to 5.000 mAh. The whole surface of the plastic disc is customizable with logos and graphics printed using silk-screen printing, CMYK printing and LED Logo.

<u>CAPACITY</u>	2.000 - 3.000 - 4.000 - 5.000 mAh
<u>OUTPUT</u>	5W
<u>SIZE</u>	Ø 10,0 cm

<u>MATERIALS</u>	Plastic
<u>PRINT AREA</u>	9,6 x 9,6 cm
<u>PRINT</u>	Silk-screen Printing, CMYK Printing, LED Logo

## Paquito

ED003

Digital alarm clock that also works as a 5W wireless charger for smartphones compatible with wireless charging. The whole upper surface can be customised by means of LED printing, a technique that allows you to create layers of colour with a relief effect combined with the backlit LED light.

<u>OUTPUT</u>	5W
<u>SIZE</u>	11,9 x 7,0 x 3,4 cm
<u>MATERIALS</u>	Plastic
<u>PRINT AREA</u>	10,4 x 5,4 cm
<u>PRINT</u>	Silk-screen Printing, CMYK Printing, LED Logo

## Ray LED

WC009

Small round wireless charger, thin and only 7.5 cm in diameter. It has a black rubberised finish and is equipped with an internal LED that enhances the display of the logo or graphic of your choice. The LED printing is a technique that enhances the logo or graphics applied, thanks to the

backlight that illuminates when the charger is in operation or is connected to an energy source. As with other wireless chargers, this model (5W power and 1A input), equipped with Qi technology, is only compatible with smartphones that support induction charging.

<u>CAPACITY</u>	5W
<u>SIZE</u>	Ø 7,5 x 1,1 cm
<u>MATERIALS</u>	Plastic
<u>PRINT AREA</u>	Ø 5,0 cm

# TWS technology: the latest innovation in Bluetooth audio devices

The term TWS or True Wireless Stereo refers to a technology which allows you to pair two audio devices via Bluetooth, meaning that you can transmit the L channel (left) and the channel R (right) separately.

You can certainly imagine the advantage of such technology applied to earphones and speakers: due to the clear distribution of sound the true wireless stereos provide immersive and engaging audio experience!

TWS devices come with no wires attached, and this feature copes perfectly with the ultimate trend of the tech-friendly user: getting rid of cables to favor the most comfortable Bluetooth and wireless technology.

With the cable clutter gone, your living spaces look neat and orderly, which also implies greater freedom of movement and more interaction with your surrounding environment.

Most TWS devices come with a remote control or mobile app for the Bluetooth connectivity, which allows you to forward, skip, or replay the tracks you want, or manage phone calls using both the smartphone and the device.

## How does the TWS Bluetooth pairing work?

First of all, you will need two TWS speakers or audio devices enabled for the pairing.

To simplify the explanation, let's call one of the devices the "main speaker", and the other the "secondary speaker".

1. Turn on first the main and then the secondary speaker.

2. Now pair them by double-clicking or long pressing - depending on the product instructions - the power button of the main speaker.

3. Now that the two devices are paired, activate the Bluetooth settings on your smartphone, search and connect only to the main speaker, and, you are done!

Now you can enjoy your favorite playlist in stereo sound or make hands-free phone calls!

## Ellipse

EP013

Wireless Bluetooth Earphones with True Wireless Stereo 5.0 technology and a case fitted with a magnetic induction charging base. The microphones are Noise Cancelling, that is they have a sound reduction feature which can reduce background noises. They are easy and fast to use: the two

earphones are automatically paired once they are removed from the case. The case has a 400-mAh battery and four luminous indicators to indicate the battery level. Each earphone has a 45-mAh battery and 4-5-hour conversation or music autonomy.

	○

## Medusa

CB017

Multiple ABS connector, roughly 16 cm, equipped with four different types of cables: USB A, Type-C, Micro USB and Lightning, all with charging function for smartphones and other devices. The ABS surface is customizable on both sides, with company logos or graphics.

**SIZE** 16,5 cm  
**MATERIALS** Plastic  
**PRINT AREA** 2,3 × 1,5 cm (×2)  
**PRINT** Silk-screen Printing, CMYK Printing

## Clap

CB005

USB cable with triple Micro, Lightning and Type C connector, suitable for both data transfer and for charging devices up to 2A. When the cable is not in use, the two ends remain firmly joined together by a magnet, and thanks to the metal loop this accessory can also turn into a practical keyring.

**SIZE** 12,9 cm  
**MATERIALS** Plastic  
**PRINT AREA** 4,6 × 0,4 + 1,4 × 0,7 + 0,9 × 0,7 cm  
**PRINT** Silk-screen Printing, CMYK Printing

## Bunch

CB008

Thanks to the double Type C connector and the Lightning and Micro 2 in 1 connector, this multi-cable allows you to connect various devices, up to 6 combinations. When they are not in use, the outer connectors remain securely fastened with a magnet, so that the cable can be attached to ties or keyrings.

**SIZE** 12,9 cm  
**MATERIALS** Plastic  
**PRINT AREA** 4,64 × 1,47 + 4,64 × 1,47 cm  
**PRINT** Silk-screen Printing, CMYK Printing

## Twinkle

CB018

Twinkle is a 120cm multi charger cable with multiple micro USB, Lightning and Type-C connectors with a 2A rating, suitable for charging smartphones and other devices. While charging, the cable shows a blinking LED light, and is available in red, blue and green.

**SIZE** Cable length 120 cm  
**MATERIALS** Plastic + Metal  
**PRINT AREA** 1,3 × 0,5 + 3,2 × 1,0 cm  
**PRINT** Laser engraving

## Collar Trio

CB009

The connectors are accommodated within a white plastic housing, which can be customised using serigraphy printing and equipped with a hook for the badge, which makes this accessory the perfect gadget for events and exhibitions. The fabric loop can be customised with a company logo.

**SIZE** 92,5 cm  
**MATERIALS** Plastic  
**PRINT AREA** 86 × 2 cm  
**PRINT** Hot Printing, Silk-screen Printing

## Hub

ED001

A USB hub allows you to multiply the number of USB ports available on a PC or Mac. Despite its very compact dimensions, this product provides 4 additional USB ports. It connects to the device via a standard USB connector and is compatible with all operating systems.

**SIZE** 7,0 × 3,3 × 1,0 cm  
**MATERIALS** Plastic  
**PRINT AREA** 7,0 × 3,3 cm  
**PRINT** Silk-screen Printing, UV Printing

## Braided

CB011

A 120 cm USB cable with a multiple micro-USB connector, Lightning and Type C, with 2A capacity and useful for charging smartphones and other devices. The cables are covered by a twisted nylon fibre fabric available in black, red and gold.

<b>SIZE</b>	9,5 × 6,5 × 0,8 cm
<b>MATERIALS</b>	Metal
<b>PRINT AREA</b>	9 × 5,5 cm
<b>PRINT</b>	Laser engraving

## Raise

GD053

Raise is an aluminium stand that lets you raise your smartphone to be positioned at eye-level for ergonomic use. Its articulated arm allows for viewing height adjustment, and the smartphone's suspended position makes for improved ventilation and heat dissipation during use.

The 8x6x1cm size means it is easy to carry around, and its aluminium material makes it a stable accessory that can support all kinds of smartphones. Raise features a printing area that can be customised with logos and graphics using laser engraving.

● ●  
**SIZE** 8,0 × 6,0 × 1,0 cm  
**MATERIALS** Alluminium  
**PRINT AREA** 4,0 × 2,5 + 5,0 × 2,0 cm  
**PRINT** Laser engraving

<u>PRINT</u>	Silk-screen Printing, CMYK printing

## Wally

Plug&Play webcam with an integrated microphone, full HD lenses and a universal clip to connect it to the computer or other surfaces. Once connected to the PC, the webcam is immediately recognised as a peripheral device and is ready to make videocalls, take jpg photos or make video recordings in avi formatting. It is fitted with a 120cm cable and a 2.0 USB connector. The resolution is 1920x1080 pixel. With a frequency of 30 frames per second, the quality of the video is excellent, the images are clear, and the colour contrast is balanced. Inclination and rotation are fully adjustable to find the perfect framing. The wide-angle lens also guarantees ample field of vision. The integrated microphone with sound reduction

ensures that voices come across clearly, even in the presence of background noises. The webcam is compatible with all operational systems. It is available in black and customisable with UV print and silk-screen printing logos.

ED005

<u>SIZE</u>	7,0 × 5,0 × 4,4 cm

## Origami

Origami is a foldable stand for holding the base of laptops, or tablets and smartphones and using them more comfortably. It is made of a continuous one-piece structure in fiberglass and PU of the thickness of cardboard, very thin but resistant. It is designed to adhere to the back of the device thanks to an adhesive, and to expand and take different shapes thanks to its pre-shaped folds. In this way, Origami creates bases of different heights for both vertical (portrait) and horizontal (landscape) screen modes. Once closed, it adheres completely to the base of the device thanks to magnets that prevent it from opening accidentally.

## Origami Phone

High-tech, insulated and sports bottles

# Drinkware

There are many reasons to choose a water bottle from the our catalogue. The most relevant is the huge variety of options to choose from: we have a genuinely

comprehensive range to cover all price brackets, technological levels, material types, brands and technical performance levels.

## Fresh

GD042

Fresh is a digital, self-sanitising water bottle. Equipped with an internal sterilisation system that uses UV light to eliminate most viruses and bacteria. The cap has a touch-sensitive sensor and LED display; just tap twice to start sterilisation. Fresh is suitable for holding any kind of liquid: it is not

affected by natural or artificial colourings, and chemical agents will not affect its food-safe, 304 stainless steel interior. It features a 220 mAh battery that can be recharged via a USB Type-C cable. It is available in white and has a silicone strap for easy carrying.

	○
<b>CAPACITY</b>	750 ml
<b>SIZE</b>	23 × 7 cm
<b>MATERIALS</b>	Stainless Steel
<b>PRINT AREA</b>	2,8 × 9 cm (x2)
<b>PRINT</b>	Laser Engraving

## Flask

GD026

500ml compressible soft-touch silicone water bottle. This water bottle can be folded up, making it easier to carry even when you have limited space, and its TPU material makes it a lightweight and durable accessory. The Flask water bottle is available in four different colours

- black, grey, dark blue and light blue - and it can also be customised with logos and graphics using pad printing.

	● ● ● ●
<b>CAPACITY</b>	500 ml
<b>SIZE</b>	27 × 9,0 cm
<b>MATERIALS</b>	TPU
<b>PRINT AREA</b>	7,0 × 5,0 cm
<b>PRINT</b>	Pad printing

## RPET Clear

GD050

600ml water bottle made from rPET material. This material is a sustainable alternative, as its composition is 100% recycled PET, making it more resource-efficient than regular plastic. This material makes for a lightweight, durable and transparent water bottle, while reducing the CO<sub>2</sub> emissions of

the production process. The product can be customised using digital printing, and an additional advantage is its delivery time: it is dispatched from our premises within 24/48 hours after order confirmation, and delivery takes 24 or 72 hours depending on the destination.

	○
<b>CAPACITY</b>	600ml
<b>SIZE</b>	23,0 × 6,8 cm
<b>MATERIALS</b>	rPET
<b>PRINT AREA</b>	All Over
<b>PRINT</b>	Silk-screen Printing, Digital Printing

### Check out the product in AR

## Clear

GD028

A 600 ml bottle in tritan, a new generation co-polyester totally free of bisphenol (BPA-FREE) and therefore suitable for food use. This material is the best alternative to plastic because it doesn't have any harmful components and is 100% recyclable. Despite being very resistant, it's light and transparent, doesn't

discolour and doesn't become opaque. The outside of the lid is aluminium-lined. It's available in transparent smoked gray and can be customised with pad printing up to three colours, digital printing.

<b>CAPACITY</b>	600 ml
<b>SIZE</b>	20,5 × 7,6 cm
<b>MATERIALS</b>	Tritan
<b>PRINT AREA</b>	15,0 × 8,0 cm + 3,5 × 8,0 cm (x4)
<b>PRINT</b>	Pad Printing, Digital Printing

## Gym

GD032

Stainless steel bottle with 750 ml capacity. Stainless steel is the most suitable material for water bottles because, by resisting oxidation and corrosion, it does not release any substance, avoids contamination and can contain any type of liquid or drink. This bottle is available in white and can be customised

with the company logo in sublimation printing (which is equivalent to a CMYK printing), laser engraving and silk printing up to a maximum of two colours.

<b>CAPACITY</b>	750 ml
<b>SIZE</b>	22,5 × 7,5 cm
<b>MATERIALS</b>	Stainless Steel
<b>PRINT AREA</b>	15,0 × 8,0 cm + 3,5 × 8,0 cm (x4)
<b>PRINT</b>	Digital Printing, Laser Engraving, Silk-Screen Printing

## Urban

GD029

500 ml BPA-free aluminium bottle, therefore free of potentially harmful substances and suitable for food use. Aluminium makes it light and therefore practical to carry around. On the lid there is a silicone strap to attach it to the backpack or bike.

<b>CAPACITY</b>	● 500 ml
<b>SIZE</b>	21 × 6,6 cm
<b>MATERIALS</b>	Aluminium
<b>PRINT AREA</b>	15,0 × 8,0 cm + 3,5 × 8,0 cm (x4)
<b>PRINT</b>	Pad Printing, Laser Engraving

You can scan the QR code with your smartphone to see the product in AR as if it was on your desk!

## Hoco

GD027

Double-walled stainless steel thermal bottle with a capacity of 500 ml. Stainless steel is the most suitable material for water bottles as it is resistant to oxidation and corrosion, and therefore doesn't release any substance or contaminate the contents. Furthermore, due to its low conductive capacity, it

can be considered a genuine thermal insulator. This feature is enhanced by the body of this bottle: a double layer separated by an air chamber, able to keep the contents hot for up to 12 hours, and cold for up to 24 hours.

<b>CAPACITY</b>	● 500 ml
<b>SIZE</b>	22,0 × 7,4 cm
<b>MATERIALS</b>	Stainless Steel
<b>PRINT AREA</b>	15,0 × 8,0, 3,5 × 8,0 cm (x4)
<b>PRINT</b>	Pad Printing, Laser Engraving

Practical, handy, useful.

# USB Flash Drives

Get the ideal promotional  
USB key for your business  
from our catalogue.  
Customise more than 50

models up to 64 GB of  
capacity with company  
logos and graphics.

## Flow

USB\_0003

USB flash-drive in rubberised look plastic, rectangular shaped with an asymmetrical side with a diagonal profile. This model stands out from more classic USB flash-drives for its retractable body which allows the chip to be housed inside and to come out for use without the need for a cap.

**SIZE** 5,6 × 2,1 × 1,0 cm  
**MATERIALS** Rubberized plastic  
**PRINT AREA** 2,9 × 1,4 cm + 2,9 × 1,4 cm  
**PRINT** Silk-screen Printing, CMYK Printing

## Bullet

USB\_0007

USB flash-drive in matt finish metal, available in gold or silver color. The memory chip is housed inside the body at one end, whereas at the other end there is a large functional round hole for threading lanyards and accessories. This flash-drive has an extremely compact size, with a striking yet essential style.

**SIZE** 3,9 × 1,2 × 0,5 cm  
**MATERIALS** Metal  
**PRINT AREA** 2,6 × 1,0 cm + 2,6 × 1,0 cm  
**PRINT** Laser Engraving, Black Laser

## Private Key

USB\_0006

Metal USB flash-drive similar to a traditional door key and distinguished by a trapezium-shaped end. This model is available in four finishes: gold, silver, copper and gun-barrel. The surface can be customised on both sides using silk-screen printing or laser engraving

**SIZE** 5,8 × 3,1 cm  
**MATERIALS** Metal  
**PRINT AREA** 3,0 × 2,0 cm + 4,7 × 2,0 cm  
**PRINT** Silk-screen Printing, Laser Engraving

## Flag

USB\_0001

Ultra compact USB flash-drive made in rubberised look plastic. This USB flash-drive is strikingly simple because it does not have a cap and the chip is built into the body. The shape recalls that of a small trapezium and there is a hole in the protruding corner for threading cords and accessories.

**SIZE** 3,7 × 1,9 × 0,5 cm  
**MATERIALS** Rubberized plastic  
**PRINT AREA** 1,3 × 1,1 cm + 1,6 × 1,1 cm  
**PRINT** Silk-screen Printing, CMYK Printing

## Bangle

USB\_0005

This USB flash-drive comes in the original shape of a soft rubber bracelet. The connector is hidden in the magnetic clasp, a feature which teams the USB memory with the distinguishing trait of being an accessory you can wear.

**SIZE** 1,9 × 23,5 × 0,9 cm  
**MATERIALS** Silicon  
**PRINT AREA** 0,9 × 15 cm  
**PRINT** Silk-screen Printing, Embossing

## Skim

USB\_0002

Ultra-slim USB flash-drive in rubberised look plastic, rectangular shaped and compact size. The distinguishing features of this model are its retractable mechanism, which allows the chip to be housed in the body without the need for a cap, along with latest-generation Chip on Board technology.

**SIZE** 5,4 × 1,9 × 0,3 cm  
**MATERIALS** Rubberized plastic  
**PRINT AREA** 3,0 × 1,6 cm  
**PRINT** Silk-screen Printing, CMYK Printing

## Tie

USB\_0009

Metal USB flash-drive with a striking yet simple, slim-line design. The memory chip is housed within the body, and there is silicone loop at the other end to which a small keyring is attached, which is useful for threading cords and accessories.

**SIZE** 7,7 × 2,0 × 0,5 cm  
**MATERIALS** Metal  
**PRINT AREA** 3,6 × 0,9 cm + 3,0 × 0,9 cm  
**PRINT** Laser Engraving, Black Laser

# Why should I choose a USB 3.0?

Have you ever had to deal with speed-related issues when using a USB interface? A low read and write speed can really test our patience. This probably happens because you didn't know that there is a valid alternative,

and it's called USB 3.0.

USB 3.0 technology has revolutionized the external memory drive market, as it provides great advantages in terms of performance.

## What advantages?

### – Data transfer speed.

This is the main advantage: in terms of numbers, we're talking about a speed that is ten times faster than USB 2.0 technology. However, it must be noted that such speeds can only be reached if the USB port being used supports this technology.

### – Compatibility.

Cables and flash-drives that use 3.0 technology are backwards compatible, which means that they can easily be used with USB ports that have 2.0 technology.

## How to recognize?

Aesthetically, there is a way to distinguish between a 3.0 and a 2.0 port or connector. The contacts base on the inside is blue, whereas for the latter it is white.

Search in our catalogue for USB flash-drives with 3.0 technology, look for the mark and find all the models available!

USB 3.0

## Bend

USB\_0008

Metal USB flash-drive available in silver. The memory chip is housed within the body, whereas at the other end there is a large functional round hole for threading cords and accessories. This USB flash-drive is extremely compact in size, with a striking yet simple style.

<u>SIZE</u>	● 4,9 × 2,2 × 0,5 cm
<u>MATERIALS</u>	● Metal
<u>PRINT AREA</u>	● 2,1 × 1,1 cm + 2,1 × 1,1 cm
<u>PRINT</u>	● Laser Engraving

## Easy

USB\_1052

Plastic USB flash-drive available in a smooth or rubber version. The profiles have rounded edges and a flashing LED indicates operation when it is connected to a computer. It is equipped with a removable cap and a functional hook at the end to apply straps and accessories.

<u>SIZE</u>	● 6,5 × 2,0 × 0,8 cm
<u>MATERIALS</u>	● Shiny plastic/Rubberized plastic
<u>PRINT AREA</u>	● 2,8 × 1,2 cm + 2,8 × 1,2 cm
<u>PRINT</u>	● Silk-screen Printing, CMYK Printing

## Leather Classic

USB\_5014

Imitation leather, rectangular-shaped compact USB flash-drive embellished with metal profiles and rounded edges. It is equipped with a removable cap and a functional mobile hook fixed to one end to apply straps and accessories.

<u>SIZE</u>	● 6,6 × 2,2 × 1,1 cm
<u>MATERIALS</u>	● Synthetic Leather + Plastic
<u>PRINT AREA</u>	● 4,0 × 1,2 cm + 4,0 × 1,2 cm
<u>PRINT</u>	● Silk-screen Printing, Embossing

## Clip

USB\_9107

A plastic USB flash-drive inspired by the shape of a paper clip. It is the ideal gadget to attach digital content to documents, such as creating folders for meetings and events. It is extremely compact as a result of the latest generation COB chip.

<u>SIZE</u>	● 3,6 × 1,4 × 0,5 cm
<u>MATERIALS</u>	● Shiny plastic
<u>PRINT AREA</u>	● 1,2 × 1,0 cm + 3,0 × 1,0 cm
<u>PRINT</u>	● Silk-screen Printing

## Twister Rubby

USB\_1111

Rectangular, compact USB flash-drive. It is equipped with a metal rotation cap with a customisable surface. It has a small functional ring at the end to apply straps and accessories. The Twister-Rubby model is one of the most popular models sold.

<u>SIZE</u>	5,8 × 2,0 × 1,0 cm
<u>MATERIALS</u>	Plastic + Aluminium
<u>PRINT AREA</u>	2,4 × 1,3 cm + 2,4 × 1,3 cm
<u>PRINT</u>	Silk-screen Printing, Laser Engraving, Epoxy Doming, CMYK Printing

## Twister Color

USB\_1116

Its key asset is the unlimited selection of colors: starting from a minimum order quantity of just 100 pieces it can be customized with any Pantone colors both on the rotating part and the body. Feel free to create your own creative combination of colors!

<u>SIZE</u>	5,8 × 2,0 × 1,0 cm
<u>MATERIALS</u>	Plastic + Aluminium
<u>PRINT AREA</u>	2,4 × 1,3 cm + 2,4 × 1,3 cm
<u>PRINT</u>	Silk-screen Printing, Laser Engraving, Epoxy Doming, CMYK Printing

## Stiff

USB\_1051

Plastic USB flash-drive available in a smooth or rubber version. Standard rectangular shape, it is equipped with a removable cap and hook at the end to apply straps and accessories. It can be customised on both sides with silk-screen and CMYK printing.

<u>SIZE</u>	7,4 × 2,0 × 0,8 cm
<u>MATERIALS</u>	Shiny plastic/Rubberized plastic
<u>PRINT AREA</u>	3,2 × 1,1 cm + 3,6 × 1,1 cm
<u>PRINT</u>	Silk-screen Printing, CMYK Printing

## Penny

USB\_0016

This multi-functional product is a perfect business gift as it combines three functions that we perform in our offices on a daily basis: writing on paper, archiving files on memory chips, tapping on tablet or work tool touchpads.

<u>SIZE</u>	14,3 × 1,4 cm
<u>MATERIALS</u>	Plastic + Aluminium
<u>PRINT AREA</u>	3,8 × 1,0 cm
<u>PRINT</u>	Silk-screen Printing

## FlashKey Square

USB\_3001

Metal key-shaped USB flash-drive with a square end. This flash-drive has a clean design and is ultra slim as a result of the latest generation COB chip. It is equipped with a functional slot to apply straps and accessories, and is ideal to hook onto key chains.

<u>SIZE</u>	5,6 × 2,4 × 0,2 cm
<u>MATERIALS</u>	Metal
<u>PRINT AREA</u>	4,0 × 0,8 cm + 4,0 × 0,8 cm
<u>PRINT</u>	Silk-screen Printing, Laser Engraving

## Memory

HD001

Solid state drive (SSD) for data storage available in three capacities: 64GB, 128GB and 256GB. SSDs represent an evolution compared to classic hard drives. SSDs contain flash memory cards connected together and have no moving parts, which makes them almost immune to damage.

<u>SIZE</u>	8,0 × 4,1 × 1,0 cm
<u>MATERIALS</u>	Metal
<u>PRINT AREA</u>	7,0 × 3,0 cm
<u>PRINT</u>	Silk-screen Printing, CMYK Printing, Laser Engraving

## Vortex

USB\_8330

Metal USB flash-drive available in silver and gold. The slightly satin and shiny finish enhances the sophisticated vortex motive on the surface. Vortex has an essential, compact design and is equipped with a removable cap. It can be customised on both sides with silk-screen printing or laser engraving.

<u>SIZE</u>	● ● 5,1 × 2,0 × 1,0 cm
<u>MATERIALS</u>	Metal
<u>PRINT AREA</u>	3,0 × 1,6 cm + 3,0 × 1,6 cm
<u>PRINT</u>	Silk-screen Printing, Laser Engraving

## Z-Drive

USB\_2210

Plastic and metal USB flash-drive that is ultra compact as a result of the latest generation COB chip. Z-Drive is a model exclusively manufactured by us. In 2009, its design won the IF Design Award. It can be customised on both sides with silk-screen printing and laser engraving.

<u>SIZE</u>	○ ● 4,0 × 1,8 × 0,6 cm
<u>MATERIALS</u>	Plastic + Aluminium
<u>PRINT AREA</u>	2,5 × 1,0 cm + 2,5 × 1,0 cm
<u>PRINT</u>	Silk-screen Printing, Laser Engraving

## Sticker

USB\_0020

Credit card shaped USB flash drive with a see-through plastic body which is fully customisable with a four-colour printing adhesive sticker. Measuring only 2mm in width, this USB can fit in your wallet, just like a business card. The adhesive can be printed in four colours.

<u>SIZE</u>	○ 8,5 × 5,4 × 0,2 cm
<u>MATERIALS</u>	Plastic
<u>PRINT AREA</u>	8,5 × 5,4 cm
<u>PRINT</u>	Adhesive Label

# What is OTG technology?

USB On-The-Go (OTG) is a standardized specification for USB connections that allows a device to read data from a USB connection without requiring a PC.

Our USB flash-drives with On-The-Go technology are equipped with a standard USB connector on one side and a micro-USB connector on the other. This means you can connect your USB flash-drive directly to a smartphone or

digital camera or any other device without any wires or cables, to read and transfer your data quickly and immediately.

The USB flash-drives OTG are compatible with Android operating system.

## Twister OTG

USB\_1117

## Twister OTG Type-C

USB\_1118

USB flash-drive made of rubber plastic and metal equipped with an extra "on the go" connector. The OTG USB flash-drive can be connected directly to the USB port on the smartphone or digital camera, for transferring and saving data quickly and immediately.

<u>SIZE</u>	● ○ ● ● ● ● ● ● ● ● 6,8 × 1,9 × 1,0 cm
<u>MATERIALS</u>	Plastic + Aluminium
<u>PRINT AREA</u>	2,4 × 1,3 cm + 2,4 × 1,3 cm
<u>PRINT</u>	Silk-screen Printing, Laser Engraving, Epoxy Doming, CMYK Printing

## Bullet OTG Type-C

USB\_0021

Aluminium flash drive with extra "on the go" connector. Bullet OTG Type-C features a rotating system with a customisable surface and a small hole for laces and accessories. The silver-coloured surface can be customised on both sides in four-colour process or laser.

<u>SIZE</u>	● 4,0 × 1,2 × 0,7 cm
<u>MATERIALS</u>	Metal
<u>PRINT AREA</u>	0,9 × 1,0 cm + 2,7 × 0,9 cm
<u>PRINT</u>	Laser Engraving, CMYK Printing

## Chic

USB\_3120

Ultra small metal USB flash drive as a result of the latest generation COB chip. The essential design and use of metal give it an elegant, sophisticated style. It opens by means of a rotary movement on one side. It is equipped with a small functional ring to apply straps and accessories.

	<input type="radio"/> <input checked="" type="radio"/> <input type="radio"/>

## Plexi

USB\_0015

USB flash drive in metal and plexiglass with a slim design and squared edges. The part made of plexiglass looks like a traditional key with a hole for chains or laces. It can be customised with internal laser incision, a technique which allows you to recreate logos inside the transparent plastic.

●	
<u>SIZE</u>	5,8 × 2,4 × 1,0 cm
<u>MATERIALS</u>	Plastic + Aluminium
<u>PRINT AREA</u>	2,8 × 0,8 cm + 2,0 × 1,0 cm
<u>PRINT</u>	Laser Engraving, Internal laser Engraving

## Color Card Small

USB\_4017

Ultra slim smooth plastic USB flash-drive. Given its shape of a credit card, it is extremely practical to carry around. It is made of plastic and equipped with a connector that comes out from the side, which can be removed to facilitate use.

○	
<u>SIZE</u>	6,0 × 3,0 × 0,2 cm
<u>MATERIALS</u>	Plastic
<u>PRINT AREA</u>	6,0 × 3,0 cm + 6,0 × 3,0 cm
<u>PRINT</u>	Silk-screen Printing, UV Printing, 3D Printing

## Silik

USB\_6050

Silicone USB flash drive accessory as a result of its dual function of bracelet and USB memory. The connector is concealed in the cap closure. Silik is slim and rectangular and can be customised on its entire length on both sides with silk-screen printing or resin relief.

●	○	●	●	●	●	●	●
<u>SIZE</u>	21,5 × 1,8 × 1,8 cm

Original travel-sized gift sets

# Gift Sets

We've taken from our catalogue some staple accessories to create three selected assortments of indispensable tech products. Surprise your clients with these original promotional gifts, perfect either for work, travel or leisure.

## ToolBox Set

KT008

A set of essential accessories to recreate your workplace at home. These products transform any context into a professional environment equipped with all the comforts for working from home as in the office.

SIZE  
PRINT

Packaging: 24,6 × 21,0 × 3,7 cm  
Packaging: Silk-screen Printing  
Products: UV Printing, CMYK printing, Silk-screen Printing

## Smart Set

KT007

Smart Set is the mix of products that combines wireless and Bluetooth technology for a cable-free desk. Whether it's the office workstation or the desk at home from which you work remotely, these accessories are designed to quickly set up a workstation free from cables that often make it uncluttered.

SIZE  
PRINT

Packaging: 24,6 × 21,0 × 3,7 cm  
Packaging: Silk-screen Printing  
Products: CMYK printing & Embossing, CMYK printing, Silk-screen Printing

## Privacy Set

KT006

A set of products dedicated to protecting digital data and the IT safety of smartphones, tablets and computers. It features a USB data blocker; an anti-RFID card and 5 webcam covers. USB data blocker is a USB adaptor which acts like a filter when you are charging your phone from a public source which is considered to be unsafe (for example, USB ports in an airport). The device impedes the transfer of data (both incoming and outgoing, such as malware), allowing only for the power required to charge the battery to be used. The anti-RFID card ensures that credit cards are fully protected from data theft and are fully isolated from magnetic sources. It looks like a card and needs to be kept in your

wallet. Lastly, the webcam cover is a small adhesive plastic sticker with a sliding open-close system to apply to your computer webcam with the aim of preventing hackers or viruses to use your device's webcam.

SIZE  
PRINT

Packaging: 12,0 × 12,5 × 3,0 cm  
Packaging: Silk-screen Printing  
Products: Silk-screen Printing, CMYK Printing

# The importance of rebranding: what is it and why promotional gadgets are crucial

By definition, rebranding is the process of strategic change of a company's brand identity. It may consist in choosing a new name, logo, or communication strategy, with the intention of reshaping its identity and positioning it differently in the reference market.

## A gadget that really talks about you

Your logo and your products are unique and this is the best way to enhance them

## Even the budget is customized!

Different price brackets, to suit any budget

## Big projects, minimum quantities

The minimum order quantity is just 100 units!

## 3D and 2D reproduction of any shape or logo!

Ultimate styling appeal and excellent results in terms of shape and colors

## Make up your own gift set

You can create an entire range of different products with the same customized shape

YOUR LOGO

OUR PROJECT

YOUR PRODUCT

Sooner or later, all companies need to renovate and "refresh" their corporate image, or address new markets and targets, or strengthen their relationship with their original target.

Whatever the case, one of the most effective ways to rebrand a corporate logo is to make company gadgets to be distributed to customers and employees and on which to imprint the elements of the new brand image.

Our 100% Custom gadgets are simply perfect for the job, as they allow you to reproduce any three-dimensional shape, and to produce a custom-made promotional accessory, whatever the initial idea.

Any other product of this catalogue is actually a perfect candidate for a rebranding project, try a customized promotional gadget, look through these pages for some inspiration!

Pods case is a tailor-made  
wireless earphone case.

Urgent orders? No problem at all.

# Fast delivery

The products ready for delivery are shipped from our premises within 24/48 hours from the order confirmation. Delivery takes place in 24 or 72 hours depending on the destination

area and the type of product. Power Bank, speakers and all battery-powered products may have longer delivery times because they do not allow shipping by air.

# Tailored projects to promote your uniqueness

We work in the consumer electronics market since more than 10 years and we are obsessed with catching innovations as they approach. When we select the products that will be later included in our promotional catalogue, we strive to anticipate our clients' needs, eager to provide solutions for any request we may receive.

**Every company is one-of-a-kind.**

However, every company is unique and so are its needs. That is why no standard catalogue could ever meet individual requirements, but we are ready also for this!

**“We are specialized in delivering bespoke projects across any industry sector and for any promotional enterprise.”**

We develop tailored and extra-catalogue products based on the requirements of our clients, so if you haven't found yet what suits you perfectly, all you need is calling on us for a made-to-measure project.

**The production line from enquiry to delivery.**

From the first touch point to manufacturing, we work closely with our customers to create their company's original equipment.

## Let's get real: some examples of our tailored projects.

### The Privacy Set: How to make the most out of the open market offer

One of our clients appointed us to develop a product focused on data protection and IT security. Our research brought us to three products that were not yet included in our catalogue: a USB data blocker, a RFID card and a webcam cover.

**“This product was so successful that we decided to create a similar one to be included in our catalogue, you will find it on page 107.”**

The first is an adaptor to place between the charging cable and the USB socket, that allows you to charge safely from any USB socket with no risk of data transfer to/from your device.

The RFID card should stay in your wallet to prevent the theft of the credit card data, and the webcam cover is useful to prevent any virus or hacker from using the computer's video camera.

Together these three objects are an exhausting combination of the data security essentials. All of them have been personalized with the company logo.

We also completed the set with a custom packaging in rigid cardboard and a manual with the products' descriptions and instructions.

## **A branded vape recharge: something never seen before**

For our client operating in the e-cigarette market we developed from scratch a multifunction product that serves both as a Power Bank to recharge the vape and as a convenient case to store the refill capsules. In addition, it recharges also the smartphone.

This item is first of his kind, and it took us several weeks of prototyping to get to the final model which ended up in a very satisfying result.

**“This is one of the most genuine examples of how much we can customize a product: the size and shape of this “Power Bank & Travel Case” is designed to fit exclusively the vape and the capsules of the brand.”**

The materials have been chosen accurately to attain an elegant look, both when the device is in use and when it is closed.

We have chosen a shiny dark grey plastic for the inside body, while the case, although in the same colour hue, looks different because it's made of soft rubber, a smooth material that is also pleasant to touch.

## Video brochure and web key: digital contents on the go

One of our customers asked our support to boost an important product launch.

They needed something that could narrate the product in a clear yet charming and entertaining way. So, we realised for them a bespoke video brochure, namely a screen housed in a card based.

It is packaged in a similar way to its traditional paper counterpart but instead of opening to reveal text and images, the user gets a miniature LCD screen and a video playing. Videos are the most effective mediums for driving sales, they're easier to digest compared to a text.

## Google Home: how we liaise with big brands

We received the request to supply a stock of Google Home devices, so we got in touch with the best providers worldwide to grant to our customer the best price and the best bundle.

**“This collaboration has proven us that we can really support our customers in teaming up with any Brand, for real unique projects.”**

We closed a convenient agreement with one of our European most trustful contacts and, in in a very short time, we had the official branded product by Google delivered at our premises.
